

PRODUCT DATA SHEET

Product ID RGH1
Description: Rear D Harness

Accredited to: EN 361: 2002
Web material: 45mm water repellent polyester
Fittings: High tensile steel alloy
Weight: 0.95kg
Features:

- Rear attachment point
- Fitted with rip stitch indicators
- Fully adjustable

Sizes: Small, Standard, Large and X-Large
Please refer to the harness size guide

The RGH1 harness is a basic access harness fitted with a rear D only. This harness is used primarily with a fall arrest lanyard to provide an operative with basic fall protection.

- When used in conjunction with a twin leg lanyard (RGL3), the harness can be used for tower climbing, scaffold and general steel erecting.
- Suitable for use with fall arrest blocks, however we recommend the addition of the RGL4 extension strop to facilitate easy connection.
