Accredited to: EN 362: 2004
Material: Aluminium
Plating: Anodised
Gate opening: 55mm
External length: 218mm
Closure type: Double Action
MBS: 25kN
Weight: 264g

The RGK11 Super Light karabiner is the perfect connector for fall arrest lanyards as it is lightweight, easy to use and allows the user to quickly clip themselves onto scaffold or steel structures. It is very similar to the RGK11 but this version is considerably lighter (almost half the weight).

The double action snap closure on this device means that it cannot be accidentally opened but allows a quick and safe operation.
