

## RGK11/LSH

### 110MM ALUMINIUM DOUBLE-ACTION SCAFFOLD HOOK WITH CAPTIVE EYE

The RGK11/LSH is our largest scaffold hook, with a greater gate opening.

This scaffold hook is the only solution when an anchor point, such as a telecoms pole, wind turbine or ladder is oddly shaped or thicker than usual.

The double action snap closure on this device means that it cannot be accidentally opened, but allows a quick operation.

Most likely used on a twin leg lanyard, to allow movement between anchor points.

/ Individually serialised

Accredited to: EN 362:2004

Material: Aluminium

Plating: Anodised

Gate opening: 110mm

Eye diameter: 27mm

External length: 362mm

Closure type: Double action

MBS: 23kN

Weight: 930g

Double action

Captive eye
