

## PRODUCT DATA SHEET

Product ID                    RGK50

Description:                 20mm Step Bolt Connector Double Action  
Aluminium Saphook with captive eye

Accredited to:             EN 362: 2004  
ANSI Z359.12

Material:                    Aluminium body  
Steel gate

Eye diameter:             30mm

Plating:                     Anodised

Gate opening:             20mm

External length:          185mm

Closure type:             Double Action

MBS:                        23kN

Weight:                     414g

The inner flat profile makes the RGK50 the most suitable and safe connector for attachment to step bolts.

The RGK50 is an alternative option to our other connectors. The 20mm gate opening allows for ideal connection to 16mm step bolts. Also the increased gate strength is a feature as required by ANSI standards.
