

# RGL32

## ANCHOR/MOUNTAINEERING SLING RGL32

This range of anchor/mountaineering slings are a useful tool manufactured using highly durable Dyneema®/nylon yarn.

This sling can be used to wrap around an object to create an anchor point, where a scaffold hook cannot be attached. Can withstand repeated use.

Also ideal to be used to attach rescue equipment and secondary back-up systems, as well as being used as mountaineering slings.

EN 566:2017

EN 795:2012, Type B

Material:	13mm Dyneema®/nylon
Breaking load:	>22kN
Length (EWL)/Weight:	0.3m = 16g (YELLOW)
	0.6m = 29g (BLUE)
	0.8m = 38g (ORANGE)
	1.2m = 55g (GREEN)
	1.5m = 69g (RED)
	2.4m = 109g (GREY)
