

Product ID:
RTLK2

Product Name:

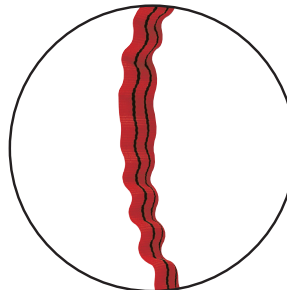

Kinetic® Tool Lanyard with Choke Loop and Belt Attachment 'O' ring

The RTLK2 is a Kinetic® twin tool lanyard with a choke loop for tool attachment and an 'O' ring for retention of a tool. It is suitable for tools up to 10kg in weight.

Kinetic® webbing was originally developed for our fall arrest lanyards, but works the same when used in the event of a falling tool to reduce the potentially devastating shock involved.

A Kinetic® tool lanyard significantly reduces the risk of a dropped tool dragging the user off a platform, the risk below is also reduced as its deployed distance is shorter than the shock pack version.

Features:

Elasticated Webbing

Choke Loop

50mm 'O' Ring

Web material:

25mm/20mm elasticated polyester

Length:

1.25m

Webbing Strength:

>1000kg

Tool attachments:

210mm choke loop and 50mm 'O' Ring
